Visual Communication

2021

Welcome

We're delighted to offer our latest catalogue for your consideration.

The following pages offer you an insight into just how Visual Communication can enrich your organisation. From visual writing boards in ceramic or glass to planning boards and pinnable surfaces, they're all designed to make your work, education or meeting space empowered.

When you write your thoughts onto a board or pin them up ... it's transforming.

You'll be in good company...every billion dollar company began as an idea & writing boards were there at every step of their development & success.

How to Select a Whiteboard

The Writings on the Wall

We offer an extensive range of writing surfaces for various applications from small offices to large corporate and educational facilities. There is a difference!

Choosing the correct surface is important to fulfil your customers expectations.

Porcelain (or vitreous enamel) surfaces are a white ceramic glass fused onto a steel substrate under extremely high temperatures. This offers a highly scratch resistant surface suitable for heavy writing uses.

Projection Porcelain is different again—with the surface embedded with mica crystals to increase the gain for better viewing with projectors. It is a matte surface so erasing is wet rather than dry wipe.

Painted steel surfaces are comprised of multiple layers of painted steel with a white top coat baked under moderate oven temperatures. The surface can be scratched and is suitable for all moderate use applications.

Glass writing surfaces are made from a tempering process that makes them up to 8 times stronger than standard glass. The glass cannot be cut after tempering. If broken, the glass shatters into small harmless pieces. The surface is extremely stain resistant.

Hard laminates are offered as whiteboards now. Such surfaces in the past were generally offered as doors or benchtops. They have a plastic resin surface and the quality of erasing is very dependent on the quality and quantity of the resin layers applied.

	PORCELAIN	PROJ. PORCELAIN	GLASS	PAINTED	LAMINATE
Surface	Vitreous Enamel	Vitreous Enamel	Tempered	Painted	Resin
Dry Erase	Yes	No	Yes	Yes	Yes
Magnetic	Yes	Yes	Yes	Yes	Yes/No
Use	Heavy	Frequent	Heavy	Frequent	Normal
Hardness	7-8	7-8	6-7	4	1-4
Warranty	25 Years	25 Years	Lifetime	8 Years	1-7 Years

CARE AND MAINTENANCE

All surfaces need to be cleaned on a regular basis. Ensure you use the correct dry erase marker rather than a permanent pen. Ensure that your eraser is clean. Our Magic Wipe cleaning cloth is an excellent environment friendly solution capable of removing difficult marks. If you have permanent writing or stubborn stains you can 'write over' them with a dry erase marker which will help to remove. Ghosting is the feint remains of writing and is not evidence of a faulty surface. Alcohol based cleaning fluids can be used for stubborn stains. Do not use abrasive cleaners. Leaving whiteboard marks on the surface for longer than 24 hours is not recommended as the longer they're left, the more difficult to erase because of various external effects from UV lights to air conditioning. Projection Porcelain is for 80% projection and 20% writing. Wet wipe of writing is recommended immediately after the presentation. Glass and Porcelain offer the best cleaning results.

Communicate Magnetic Whiteboards

Excellent hardwearing magnetic surface for general use applications. For use with drywipe pens. Can be mounted landscape or portrait. Aluminium frame, concealed corner mounting supplied with pen tray and fixings. Surface guaranteed for 8 years.

- Ideal for all lighter to medium whiteboard writing users

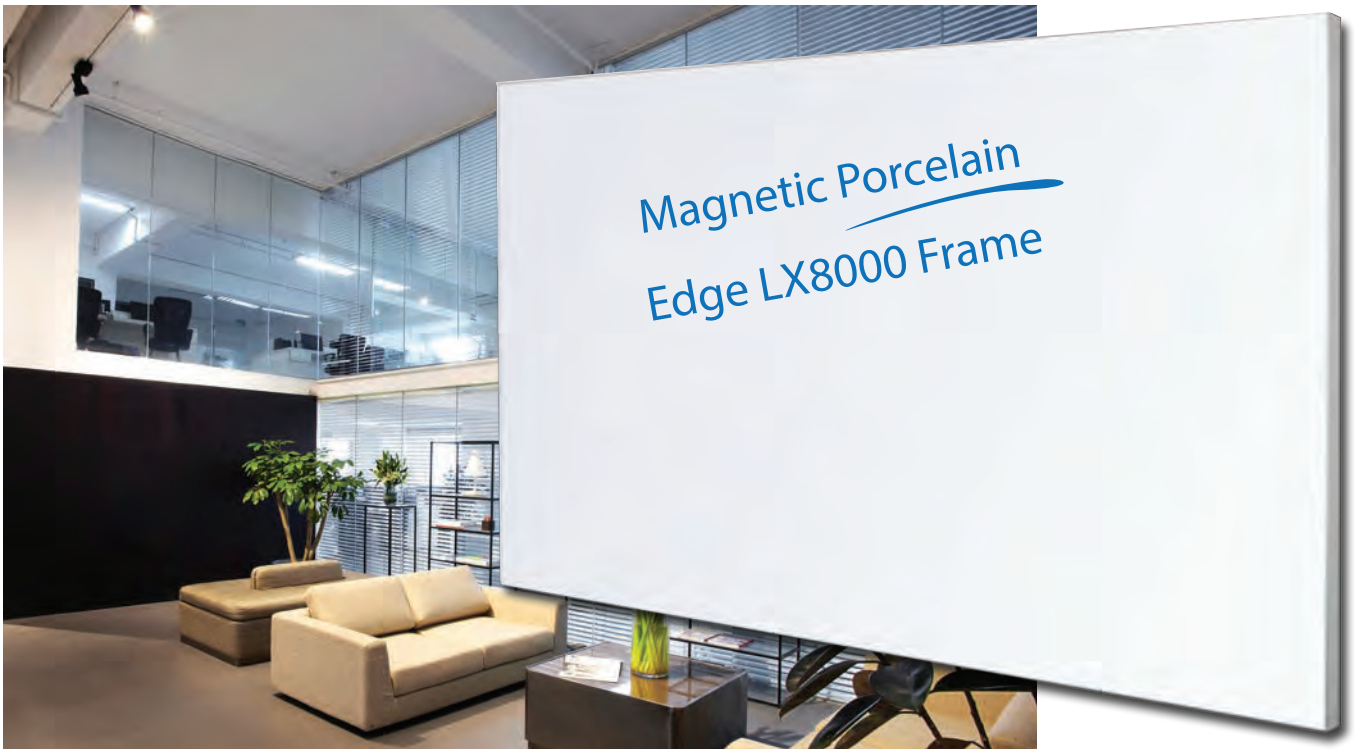
EDGE LX8000 Architectural Framed Porcelain Writing Surface

Magnetic Porcelain Surface and Aluminium Frame



When quality and style count the Visionchart Edge LX-8000 Porcelain board is the industry leading standard. The frame is aesthetically designed to be minimalist. A 4mm lip in the aluminium profile covers and protects the cut edge of the porcelain board surface.

Designed to be installed with no visible fixings. A Communication wall can be created with unlimited board modules butt joined side by side. Maximum module is 3000 x 1190mm (height could vary between 1190mm to 1195mm)

For a more seamless look we recommend white powder-coated frames.

The Porcelain (Vitreous Enamel) surface provides the best performance writing surface being scratch and stain resistant and comes with a 25 year life time guarantee.

Recommended for high use situations.

VISIONCHART

Lumiére Magnetic GLASSBOARDS

PURE White Starphire Magnetic Glass

Fixtures float the board 20mm off the wall

THE LUMIERE STARPHIRE DIFFERENCE ...

PURE White or Starphire Glass is Low-Iron Glass allowing non-tinted transmission through the glass of the white paint finish on the back. Low Iron glass is optically absolutely clear due to the reduced iron content. Mineral traces standard glass gives a slight green tint. You should choose Lumiere Starphire Glass boards if you want a PURE Brilliant White finish.

- Designed to blend seamlessly with any décor, the eco friendly brilliant white and ultra clear glass boards simply communicate, naturally. Visionchart 'Starphire' glass.
- Contemporary – alternative to traditional whiteboards highlighted by the translucency and elegance of premium glass.
- Quality – toughened 4.5mm glassboard, non-porous surface will not ghost or stain and works with standard dry-erase markers.
- Frameless – tempered glass is borderless to create clean lines, uncluttered and ultra modern appearance.
- Fixtures - white fixtures compliment the white glassboard, silver highlight the black glassboard floating the board 20mm off the wall

Z I P ACOUSTIC DIVIDER SCREEN

Z I P dividers are designed to divide larger areas into quieter, more functional spaces, providing an easy and cost-effective way to minimize the noise and visual distractions found in today's open work environment. Constructed from 100% recycled PET materials, Z I P dividers absorb up to 85% of ambient noise and easily zip together to create an innovative acoustic solution that allows workers to be more focused and productive while maintaining the benefits of collaboration.

- Rated to absorb 85% of ambient noise (NRC 0.85)
- Made from 100% recycled PET eco-friendly materials:
- Fabric: 100% Post-Consumer; Core: 60% Post-Consumer
- Offered as 3-pack with expansion panels sold separately
- Panels zip together easily to extend the length
- Flexible zippers for more flexible floor layout options
- Tackable fabric material ideal for collaborative spaces
- Available in 5 colors: Graphite, Silver, Marine, Sand, Copper

Modular Wave Screen

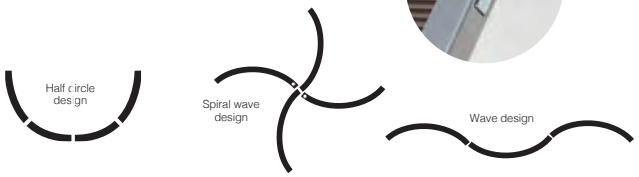
Create stylish privacy in seconds with the new modular screen system. Made from a light bronze tinted ribbed polycarbonate, filtered light is able to pass through to brighten work areas but still provides functional privacy.

Join as many straight and curved panels together to create flexible work spaces. These screens allow you to create not only straight and L shape partition but also unique wave, curved and even circular walls and room dividers.

- Screen size (H)1603mm x (W)806mm
- Powder coated steel frame
- Each screen weighs approximately 10kg.

Code	Description	Size
VW1680	Modular Wave Screen Curved	1600x800Wx400D
VW1680-S	Modular Wave Screen Straight	1600x800Wx400D

Strong magnets are incorporated into the frame which securely hold panels together without the need for any screws and totally eliminating any gaps.



Take a Stand!

SIT STAND Solutions

VISIONCHART are pleased to offer our Sit and Stand desk solutions.

This range comprises our breakroom meeting table and lectern/small desk. and AIRO height adjustable desks in 1200mm, 1500mm and 1800mm sizes.

Everyone these days should be aware of the benefits for having a desk that allows you to both sit and stand. Increased wellbeing through less lower back and neck strain.

Sitting down and feeling tired? Raise the desk and stand which offers increased blood flow and wellbeing. We know it's good for us.

AIRO now allows sit stand desks to be used in more places. No need for electricity. No need for winding handles to crank the desk up or down.

Our new patented (USA, China, Germany, Taiwan, Japan, Australia) AIRO desk is so simple to raise and lower .. and is so quick and light.

Breakroom Table

Highly versatile and stylish table with all the health benefits of height adjustment from sitting to standing positions.

How to Select a Pinboard

Just pin it !

A pinboard is a vital component to collect and exchange ideas and thoughts. Wherever people plan, meet and create... simply share your thoughts by pinning your ideas to the wall.

Sometimes in office design, pinboards are almost an afterthought. Pinboards (or noticeboards) are colourful adding a buzz and energy to any meeting space. Plus they reduce harsh acoustic levels in areas where hard surfaces are used.

A single notice board can become cluttered and unused. Don't cram too much information on one board. Use multiple pinboards so your information is easily viewable. You can choose to integrate pinboards with writing boards to create a dramatic and aesthetic communication wall.

Available in either a wrapped frameless finish, standard aluminium frame or EDGE LX6000 architectural.

CORK:	100% natural and renewable material that compliments all natural décor
FELT:	Made from wool dyed fibres which are non woven. A good value pinboard option.
VELOUR:	Woven polyester fibre made from 60% recycled content. Excellent sound absorption index of 0.4—which means that 40% of sound is absorbed. Velcro® receptive as well.
ACOUSTICA:	100% manufactured from recycled Australian tyres. Excellent sound absorption. Easy to clean.
KROMMENIE:	GECA certified material made from fine crushed cork, resin and linseed oil. Holes are self healing. Bacteriostatic properties makes this ideal for Healthcare uses.

PEEL ‘N’ STICK ACOUSTIC PINNABLE PANELS

The innovative adhesive backed tiles provide a colourful and practical solution to drab and boring walls, offering you complete design choice whether you’re wanting a pin board or a complete acoustic wall solution.

APPLICATIONS

Residential: kid’s bedrooms, home theatres, home offices and rumpus rooms Education: classrooms, libraries, staff rooms, administration blocks, halls and entrance ways Commercial: retail fit outs and offices Use anywhere you need a surface that can reduce reverberated noise and act as a pin board

FEATURES

Adhesive backed tiles are “hook and loop” friendly and also pin and staple receptive, which helps in eliminating unsightly pin holes in the wall.

DESIGN FREEDOM

Create a checkerboard effect by choosing just one colour and laying in alternate directions, or mix and match the colours to create almost limitless design options.

EASY INSTALL

Adhesive backed tiles have a self-adhesive backing -- just peel and stick! Each pack comes complete with easy to follow instructions. Adhesive backed tiles are not suitable for concrete block or other profiled surfaces - for these applications, we recommend the use of standard Tiles in conjunction with a contact adhesive.

PRODUCT FORMAT

Tile Size: 600mm x 600mm

Time to shine

The VISIONCHART range of audio visual technology products empower you to become even more effective.

We are proud to offer the PLUS range of Copyboards in Australia. PLUS invented the Copyboard in Japan, which means outstanding quality and durability. Copyboards offer the ability to write, print and save all your meeting notes. One touch simplicity. The M18S and M18W feature 2 screens … just press the button and a new screen rolls around .. so you have twice the amount of writing space.

Our Epson projectors offer stunningly bright, crisp and colourful images. They can be table or stand mounted .. or for a professional look .. mounted from the ceiling. Ideal for displaying spreadsheets, presentations and videos.

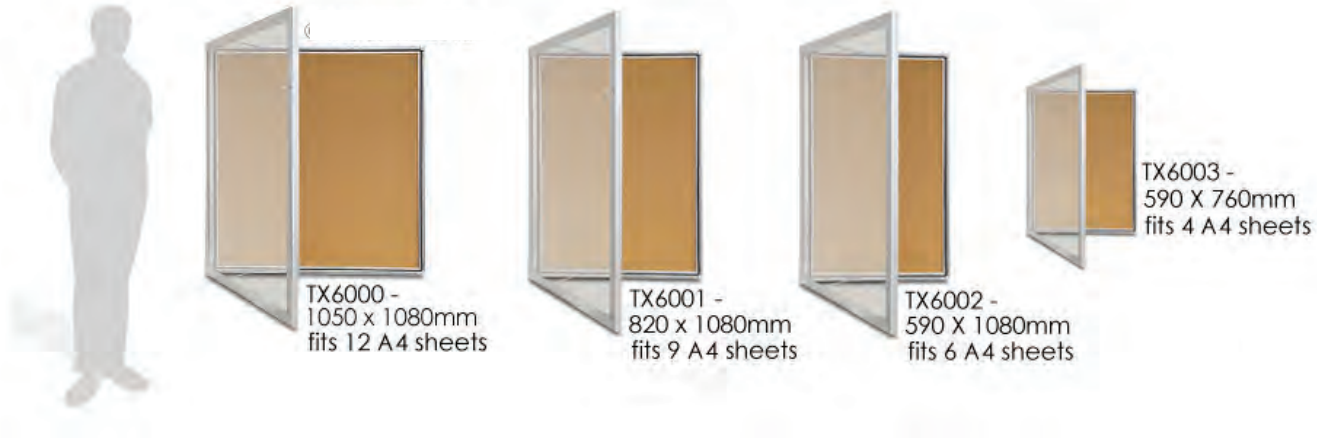
bioboard communication boards by VISIONCHART

TX Case® Weather Resistant Notice Cases

NEW



Anti tamper style and lockable

Internal rubber gasket helps prevent moisture and dust inside cabinet

Product Specification Update

- All TX cases are now supplied with double weatherproofing. A black rubber gasket on the board frame and a clear gasket on the door frame. Double protection!
- All cases have a single lock with 2 keys provided.
- All metal stays have now been removed from TX Cases due to OH&S concerns that people were relying on the stays to remain in place on extreme windy days. On windy days we suggest that a 2nd person protects the door from inadvertently closing.
- Cork is a naturally grown substance, 100% environmentally friendly. From time to time minor colour variations will occur in the cork. This is no way voids the warranty or is cause for replacement.

Be Noticed - Hinged Door Notice Cases

Superior Hospitality Products

Make a great impression

It's so important to get it right...the first time. In today's ultra competitive retail world you have to provide customers and guests, a reason to come into your premises for the first time .. or return. The VISION Guest range provides exceptional quality for all 'front of house' areas.

- Hotel trolleys are available in 2 styles that suit all hotels up to Five Star.
- Retracta Q and Executive Q stands represent over 30 years of design and supply excellence. Ideal for all areas from government offices through to event promotions and reception areas.
- Australian made grooved felt signage and lettering is simply unequalled when you're trying to display products and pricing. You're in control...change the product .. change the price...done. How easy was that. Crisp, clear and easy to read allowing your customers to make quick and informed decisions.

Umbrella Wrapping Machine - manual

The umbrella wrapper is a non electric mobile machine that can be quickly positioned at the entrance of any commercial building entry area with the aim to prevent customers and staff entering the building dripping water from their wet umbrellas. By reducing water droplets on the floor you would be contributing to a safer public environment and potentially saving someone from harm & injury.

When people with wet umbrellas enter your premises, they would be encouraged to use the UMBRELLA STATION by inserting their wet umbrella into the shute. Once inserted, a waterproof polybag is automatically inserted onto the umbrella preventing water from dripping on to the floor as shown.

The polybags are reusable and are generally taken home with the users as it keeps the umbrella dry weather in their vehicle or public transport.

Small footprint only: W300mm x D300mm x H1190mm. Weighs approximately 18kgs

Simply wheel out on those rainy days and quickly wheel away when the sun comes out. DON'T WAIT FOR A RAINY DAY!

Installation Form

The more information we have the smoother your installation will run!

Your Account Name:

Purchase Order: Date: / /

Installation Address:

Company: Telephone*:

Level: Address:

On-site contact person is*: Their Mobile No is:

Secondary contact person*: Their Mobile No is:

Is there on-site parking? Yes ☐ No ☐ Is there a GOODS LIFT? Yes ☐ No ☐ * Indicates required items

Information to INSTALL the boards

As per our OH&S policy this information must be completed correctly for the SAFE operating conditions of our installer.

- There must be a person on site who knows WHERE the boards are to be installed.
- Our Installer can wait a max of 15 min. There will be an additional charge of $20 per 15 minutes if we do have to wait longer
- If you have a piece of furniture that cannot be moved then we need to be sent an image of the area where the board is to be installed. **Special equipment or people may be required. *May be an additional fee***
- Are any of the boards to be installed **PORTRAIT**? Yes ☐ No ☐
- Are any of the boards going to be **BUTTED** together? Yes ☐ No ☐
- **IS DELIVERY ABOVE THE GROUND FLOOR?** Yes ☐ No ☐ If **YES** please understand the following:

The OH&S policy of VISIONCHART require us to consider the health & safety of our employees when delivering / installing boards, particularly larger sizes.

Lifts

For items to be delivered above the ground floor, we need to know if the goods will fit into a lift. There may be space WITHIN the lift .. but if we cannot get the item through the lift doors .. then that particular delivery will probably be unable to occur. The longest board (including the outer carton) that can go into a lift is the diagonal of the LIFT DOOR opening.
If your customer needs a longer board, but is greater than the diagonal we can deliver to the ground floor. Once the goods are signed for as received in good condition we do not cover any credit for damages etc thereafter.

Fine Print - Please Read

- Unless specified in the original quote, the installation charge is on the assumption that delivery & installation can be effected by (1) person
- Visionchart will take reasonable care to complete the installation but will not be responsible for the movement of any office furniture & for any damage or scratches that may occur because the work space is not adequate to deliver the boards into a particular room or a restricted space in which to manoeuvre the board into position.
- Should there be an unreasonable time delay due to any of the above Visionchart reserve the right to raise an additional charge
- The installation of the board(s) is warranted against defects for a period of 90 days. Please notify us for any loose fittings or irregularities. Calls after this time will incur a call out inspection fee and/or a re-installation fee.
